

Disaster Recovery as a Service (DRaaS)

Designed for your specific business requirements

Will Your Disaster Recovery Plan Be Effective?

IT disruptions may be inevitable, but data loss and downtime don't have to be. In the event of a failure, CCSI's Disaster Recovery Cloud Service ensures fast recovery of your business critical applications while minimizing the chances of data loss.

Three out of four companies fail to prepare for disaster recovery. Don't be part of the statistics; be prepared. Utilize CCSI's disaster recovery specialists, who can design, provision, configure, and test an effective plan.

Whether your production environment is on premises, a third-party site, or already in the cloud, CCSI's Disaster Recovery Cloud Service lets you implement scalable, flexible, secure disaster recovery without requiring changes to your existing IT infrastructure. And since it's hosted in the cloud, our offering is ready to bring you back on line quickly, whenever or wherever a disaster strikes.

Protected Recovery Site

RTO under 15 minutes
