

ThreatProtect

Real Time Cyber Attack Detection and Response 24 x 7

Find and Stop Cyber Threats Inside Your Network

CCSI's ThreatProtect monitors all network traffic to gain high-fidelity visibility into all device actions – including IoT and BYOD devices, from the campus to the data center to the cloud, leaving attackers exposed.

Feel secure knowing CCSI's ThreatProtect is continuously monitoring your network. ThreatProtect security solution provides real-time attack visibility that's powered by adaptive behavioral models. This allows the CCSI security analyst to quickly and efficiently find elusive cyber attackers in your network before they cause damage. ThreatProtect is adaptive to your ever-changing network and instantly identifies any phase of a cyber attack.

ThreatProtect eliminates the labor intense threat hunting by rapidly identifying and isolating threats. We automatically prioritize, score, and correlate detected threats with compromised hosts and key assets that are the targets of an attack. In addition, CCSI security analysts can identify network hygiene issues and recommend a resolution.

CCSI will notify you of threats detected, determine exposure, quickly isolate, and provide remediation advice. This includes necessary research, blocking source or destinations, removing device(s), incident life cycle management and documentation, quarterly detection reviews, change and report management, all with variable SLA options.

Real-time Continuous Threat Monitoring

Incident & Remediation Management

Service Desk User Interface

ThreatProtect Features & Benefits

- Superior Threat Visibility
- Identify Network Hygiene Issues
- Rapid Isolation
- Incident Lifecycle Management
- Identify Elusive Cyber Attackers
- Reporting & Detection Reviews

Why CCSI?

CCSI provides the highest quality of service in the industry for the full spectrum of technologies—from containers to PCs, network infrastructures, managed services, IP telephony, cybersecurity, cloud services, to storage solutions. We provide architecture with innovation. Partner with us and discover what sets us apart from the rest.

We listen, we care, and we support. Let's Grow Together.
