Newsday Names CCSI a Winner of the Long Island 2018 Top Workplaces Award

Bohemia, NY, October 29, 2018 – Contemporary Computer Services Inc. (CCSI), has been awarded a 2018 Top Workplaces honor by Newsday. The list is based solely on employee feedback gathered through a third-party survey administered by research partner Energage, LLC (formerly WorkplaceDynamics), a leading provider of technology-based employee engagement tools. The anonymous survey measures several aspects of workplace culture, including alignment, execution, and connection, just to name a few.

"Top Workplaces is more than just recognition," said Doug Claffey, CEO of Energage. "Our research shows organizations that earn the award attract better talent, experience lower turnover, and are better equipped to deliver bottom-line results. Their leaders prioritize and carefully craft a healthy workplace culture that supports employee engagement."

CCSI is honored to receive the "Top Work Places" award especially since the results were directly from the feedback our employees provided. We appreciate their opinion and value their honesty, which is why the survey was initially performed. "It's wonderful to learn your employees appreciate the effort the company provides to keep employees engaged and satisfied, between how projects are managed, office benefits, to company celebrations." said CEO/President John R. Riconda.

"Becoming a Top Workplace isn't something organizations can buy," Claffey said. "It's an achievement organizations have worked for and a distinction that gives them a competitive advantage. It's a big deal."

About CCSI
